

AAOMPT Poster Session

Poster Number	Poster Title	Author
1	A Case for Conservative Management as a First Line Treatment in Bilateral Temporomandibular Condylar Fractures: A Case Report	Ashley Duer
2	Application of Clinical Practice Guidelines (CPG) on Subacute Rotator Cuff Tear: A Case Report	Kaylan Johnson
3	Effect Of Talocrural Joint Manipulation on Pain Sensitivity for Patients with Achilles Tendon Pain	Scott Lowe
4	Thoracic Manipulation Improves Neurodynamic Mobility in Individuals with Radiating Leg Pain: A Case Series Report	Elise Harris
5	Manual Therapy on Wheels: Mobilizations for a Patient in a Wheelchair	Liam Kiernan
6	Short-Term Effectiveness of Manual Therapy on Medial Knee Pain	Margaret Lindquist
7	Evaluation and Management of Dizziness in the Setting of Polytrauma of a Cyclist: A Case Report	Sarah Mcauliffe
8	Reductive Loading and Motor Learning Strategies Combined with Medical Management for an Individual with Cervical Dystonia	Eric Trauber
9	Multimodal Non-Surgical Management for Individuals with Ankle Osteoarthritis: A Case Series	Girish Padmanabhan
10	Looking Beyond the Hips - Use of Thoracic Joint Mobilization in a Geriatric-Athlete with Chronic Bilateral Hip Pain: A Case Report	Jeffrey Waldron
11	A Focused Literature Review to Examine Functional Outcomes Related to Ankle or Foot Joint Mobilizations in Individuals with Chronic Ankle Instability	Robert Wiederien
12	Ankle Sprain, Fever, and Fatigue: Autoimmune Disorder Identification Through Physical Therapist Screening and Referral	Chris Grecco
13	Orthopedic Management of Shoulder Dysfunction Following Transoral Robotic Surgery: A Case Report	Cindy Guo
14	The Effects of the Effects of Dry Needling on the Height and Width of the Lumbar Multifidus: A Pilot Study	Alison Vargo
15	Utilizing Regional Interdependence in a Patient with Dorsal Hand Pain: A Case Report	Alison Vargo

16	Addressing Kinesiophobia Following Total Knee Arthroplasty: A Case Report	Steven Pruett
17	When Symptoms Lie: Reassessing Scapular Pain Through Segmental Hypothesis Testing	Thomas Myers
18	Prevalence of Positive Neural Findings Outpatient Orthopaedic Patients: An Exploratory Study.	Kevin Farrell
19	Driven to Discomfort: Unraveling Neck Pain After and MVA	Brittany Etrick
20	The Impact of Delivery Models on Psychomotor Performance of Manual Procedures: A Pilot Study	Jane Borgehammar
21	Shared Decision Making for Elective Surgery in a Patient That Achieved MCID For Chronic LBP	Jane Borgehammar
22	Management of a Partial Ulnar Collateral Ligament (UCL) Tear in the Combat Athlete with Serial Ultrasound Imaging: A Case Report	Michael De La Cruz
23	An Evidence-Guided Approach to Functional Chronic Ankle Instability in a Recreational Athlete with Prior Midfoot Injuries: A Case Report	Jeremy VanDuLuitgaarden
24	Cervical Spondylotic Myelopathy Masquerading as Bilateral Wrist and Hand Pain: A Case Report	Gabrielle Van Scoy
25	Non-Thrust Joint Mobilization and Dry Needling to the Upper Cervical Spine and TMJ for the Successful Management of Otologic Symptoms in a Patient	Renee Kawecki
26	Entry-Level Physical Therapists' Perceptions of Manual Therapy in Clinical Practice	Richard Hubler
27	Hamstring Syndrome Successfully Treated with Hydro-Distension Injection Under Fluoroscopic Guidance and Multimodal Physical Therapy Management: A Case Report	Lindsay Moore
28	An Evidence-Based Approach for Conservative Rotator Cuff Tear Rehabilitation: A Case Report	Elizabeth Hoffman
29	Could Manual and Manipulative Therapy to The Upper Cervical Spine Aid in a Neurologic Reset to the Central Nervous System in an Athlete Following Concussion? A Case Report	Jennifer Boudreaux
30	Touch Vs Tech: Manual Assessment of Segmental Lumbar Hypomobility Compared to Ultrasound Imaging	John Winslow
31	Can Touching Your Toes Predict Relief? Finger-To-Floor Flexibility and Response to Spinal Manipulation	John Winslow
32	Overutilization of Imaging in Young Athletes with Low Back Pain	John Winslow

33	Comparison Between an Awareness Through Movement Lesson and a Whole-Body Stretching Regimen to Improve Standing Functional Rotation	Mark Erickson
34	A Manual Therapy Approach to Conservatively Treating Saphenous Neuritis	Erin Wood
35	Clinical Decision Making for Evaluation of a Direct Access Patient with Low Back Pain	Bryan Hurd
36	Transition to a Hands-Off Patient-Centered Approach in Management of Intra-Articular Hip Irritation. A Lesson in Individualized Recovery Profiles.	Jiao Fan
37	Medial Epicondylalgia or Cervical Source? A Fellow's Clinical-Reasoning Journey Highlighting a Patient's Successful Return to Construction Work	Jiao Fan
38	Are Physical Therapists Really Palpating Transversus Abdominis Contractions?	Tamara Phelan
39	Clinical Reasoning, Differential Diagnosis and Management of Heterotopic Ossification in a Patient with Chronic Hip and Low Back Pain	Calvin Cook
40	Clinical Reasoning in the Differential Diagnosis of a Femoral Neck Stress Fracture in a Recreational Runner: A Case Report Highlighting the Utility of the Patellar Pubic Percussion Test	Calvin Cook
41	Timing is Everything in Chronic Neck Pain: An Initial Multimodal Approach Emphasizing OMPT Followed by Dry Needling	Tyrees Marcy
42	Remote Neural Tensioning Following Cervical Mobilization for Chronic Brachial Plexopathy	Joseph McEachern
43	Pain Phenotyping as a Predictor of Response to Evidence-Based Physical Therapy Interventions	Jacob Marsden
44	Vital Signs as a Clinical Compass: A Clinical Framework for Addressing SDOH In Orthopaedic Manual Physical Therapy.	Austin Sheldon
45	Overcoming Obstacles: A Case Study of Maladaptive Beliefs and Recovery After Lumbar Fusion Surgery	Olayiwola OyeKanmi
46	Use of Differential Diagnosis and an Interdisciplinary Approach for Diagnosis and Treatment of an Osteoid Osteoma: A Case Report	Devin Hartman
47	Comparing Outcomes in People with Neck Pain Treated with the Neck Pain Clinical Practice Guidelines or Mechanical Diagnosis and Therapy: Preliminary Baseline Data in a Randomized Clinical Trial	Ronald Schenk
48	Uncovering Pharmacologic Drivers of Shoulder Pain: Physical Therapy in a Patient on	Renzo Mendoza

	Anastrozole	
49	Exploring ChatGPT as a Tool for Pain Neuroscience Education Across Health Literacy Levels	Mary Beth Geiser
50	An Interdisciplinary Approach to Management of an Atypical Mechanical Cervical Radiculopathy Case: A Case Report	Mitchell William
51	The Effect of Medial Longitudinal Arch Support on the Weight-Bearing Dorsiflexion Lunge Test in Collegiate Football Players	Nathan Nevin
52	A Shift in the Right Direction: Rapid Resolution of a Non-Radicular Lateral Shift with Manual Therapy	Michael Morgan
53	Force Production After Ankle Mobilization and Manipulation Varies by Sex: A Randomized Controlled Trial	Jason Ashby
54	Will Implementation of a High-Level Design Document Alter Course Author Self-Efficacy in Post-Professional Education?	Stephanie Pascoe
55	Developing a Diagnostic Cluster for Mechanical Low Back Pain	Mark Gugliotti
56	Foam Rolling the Path to Progress: Enhancing Movement Control in Chronic LBP	Mitchell Johnson
57	Orthopedic Manual Physical Therapy Following Distal Radius Volar Plating: A Case Report	Madalyn Cregg
58	Successful Physical Therapy-Led Multimodal Treatment Approach of Bilateral Temporomandibular Joint Replacement: A Fellow's Case Report	Kathryn Barry
59	Does the Manubrium Move During Neck Rotation?	Valerie Coolman
60	Identifying Directional Preference: A Scoping Review of Variability and Application in Musculoskeletal Pain Management	Josh Kidd
61	Identification of a Deep Vein Thrombosis in a Dark-Skinned Male: Finding Limitations in the Wells Criteria	Justin Zych
62	Physical Therapist Management of Glenohumeral Osteoarthritis: A Case Series	Nick Rainey
63	Differentiating Hip Pain: Recognizing Red Flags for Serious Pathologies- A Case Report	Sabrina Martineu
64	ECCENTRIC EXERCISE IMMEDIATELY IMPROVES SHOULDER MOTION WITHOUT REDUCING END-RANGE STRENGTH	Maryclaire Capetta
