

AAOMPT Research Committee Abstract Grading Rubric

	Exceeds Submission Criteria 5 points	Meets Submission Criteria 3 points	Insufficient Submission 0 points
Case Report / Case Series / Clinical Pearl			
Title *relevant / informative to case * no abbreviations / medical record jargon			
Background / Purpose *sufficient information to inform reader of relevance / gap in literature *interested / informative for the web reader *Purpose is coherent and clear			
Case Description *succinctly describes case *highlights uniqueness of case *high-level of clinical reasoning / decision-making clearly articulated *maintains scientific writings (avoids medical record jargon)			
Outcomes *includes subjective and objective validated measures			
Discussion / Conclusion *summarizes case; no new information included *states what has occurred and does not generalize to wider populations or overstates the ramifications			
Total Score: ___ /25			

	Exceeds Submission Criteria 5 points	Meets Submission Criteria 3 points	Insufficient Submission 0 points
Research Report			
Title *relevant / informative to project * no abbreviations			
Background / Purpose *sufficient information to inform reader of relevance / gap in literature *interested / informative for the web reader *avoids advertising biases *Purpose is coherent and clear			
Methods *succinctly described style of project *data analyses outlined			
Results *data from completed projects or completed piloted projects included			
Discussion / Conclusion *highlights the results and contextualizes the findings for the reader *avoids advertising biases			
Total Score: ____ / 25			

Data analysis (if applicable), outcomes / results are clearly stated:

NO: 0

YES: 1

NOTE: If no data analysis provided for research study, no outcomes included and/or no results available, the abstract should be rejected.

Any concerns for safety of patient results

YES: 0

NO: 1

Other Comments to the Research Committee:

Recommended Selection:

Poster_____

Platform_____

Reject_____ (please specify as to why, including safety concerns)
